

Package for CD option in PowerPoint

1. Click on the Office button in the top left corner of PowerPoint 2007. Go to Publish and choose Package for CD from the Publish menu.
2. Name the CD if you would like and then click on the Options button. (see below)

**Click
Here!**

3. Choose the Archive Package option in the Options dialog box and make sure that there is a check mark beside Linked Files. (see below)

4. Click OK.
5. Put your blank CD into your CD drive.
6. Click the Copy to CD button in the Package for CD dialog box.
7. Click Yes when asked about including linked files. (see below) If you don't do this, your sounds will not be part of your CD.
